400 CASES

VINEYARD:
FONDUGUES
PRADUGUES

ALCOHOL: 12.5%

Our first vintage of Vin de Soleil was grown and produced in Saint-Tropez at Fondugues Pradugues which practices biodynamic & organic farming. This unique site is located in Ramatuelle's plateau, 800 meters from the Mediterranean Sea giving this wine salinity & minerality.

This wine aged in stainless steel and made with Indigenous yeast and without sterile filtration.

Tasting Notes: Intense apricot color with coral highlights / Floral bouquet with freshness and elegant aromas of white peaches and confit apricot / Heady rosé with peach and fine mineral tension at the end.
