

B. Kosuge Wines

Sonoma Coast "The Habitat" Pinot Noir 2016

*A*fter a 3-day cold soak, the Pinot Noir warms up naturally over 3 more days to begin fermentation with native yeasts while retaining 50% whole cluster. Coming from Barlow Homestead Vineyard, this is organically farmed in cooler Northwest Sebastopol at 350 feet in elevation. The vines are planted at a high density with a low yield that translates to great energy in the bottle - a true standout.

SOURCE	Barlow Homestead Vineyard
VINES	Calera and swan clones
VINIFICATION	3-Day cold soak before fermentation with 50% whole cluster.
AGING	Used 228 liter French oak barrels
PRODUCTION	74 cases
