*«What better way could we find to honour our Father and Grandfather, than producing a wine in his honour, the **CASA do VALLE – HOMAGE.***

From him we received a difficult inheritance, since he always distinguished himself through work, dedication and passion for wine and a dynamism that he has always maintained throughout his long life.

His courage and attitude towards life and society has been the example that we follow with enthusiasm and dedication.

*His sons and grandsons raise a glass of this wine in his honor, saying - **thank You**»*
