

An Choctaw maiden. A English trader. An improbable affair. A daring escape. A race against all odds for her to save him from a Cherokee attack.

This is stuff of legend, born in South Carolina, like us. You see, our distillery rests on a piece of the very land that the maiden raced across to save the love of her life. And like her we're driven by a great passion: a labor of love to create the best local spirits that are nothing short of legendary.

Meticulously watched over, nurtured over time. At Six & Twenty we pour our heart & soul into every batch, barrel, and bottle which makes our spirits . . . Crafted by Hand & Heart!
