€∃ Mamete Prevostini

**Vinification:** berries not perfectly intact are eliminated. After a gentle destemming, the grapes, lightly pressed, are sent in stainless steel containers where the alcoholic fermentation takes place in a 11 days period, during which the skins are in contact with the must with a temperature of 25°C. After the pressing, the wine, placed in wooden barrels, carries out the malolactic fermentation. Here it remains for a further 12 months period of aging. The process is completed with 8 months refinement of the wine in bottle.

## TASTING NOTES:

Bright ruby red color. Persistent aroma of small red fruits with light spicy notes. Taste velvety, balanced and fresh, tannic with concentrate final that shows a nice texture.

## WINE-PAIRING:

Medium-structured meat dishes and young and mature cheeses.
